# OUR SIMPLE PROCESS

## 1 ASSESSMENT

We complete a bio-psycho-social assessment with one of our trained and compassionate counselors. Through your assessment our staff will be able to gather information needed to place you in the best treatment available. If you need a level of care which we don't provide we will work with our network of providers to assist you.

## 2 SCHEDULE

Next, is to decide which program would address your current recovery needs. At Care we work with all major insurance companies and offer scholarships for individuals without insurance or limited financials.

## 3 TREATMENT

Once all your questions have been answered and you're ready for treatment our staff will schedule your admission date and you are able to begin a new chapter in your life.
